Single Column Bench

Basalt Natural Top Bench

Basalt Bench 5'-6'

Packaging & Delivery:

Our Basalt Benches are typically packaged unassembled on shrink-wrapped pallets.

Characteristics:

Our natural stone benches are made from indigenous Basalt locally quarried in the Squamish Basin in southwestern British Columbia. Machine sawn columns are used to create the pedestals and sawn tops.

Description & Color:

The Basalt Bench is grey in color with brown and tan variations. Naturally weathered with some mosses and lichens present.
