Packaging & Delivery:

Four foot and under columns are stood up on pallets for easy shipping. Five foot and taller columns are placed on dunnage.

Characteristics:

Basalt Columns are picked from our quarries and many get processed into our wallstones and stepping stones. The ones that stand out from the rest get a sawn bottom and are transformed into monolithic pieces of art.

Description & Color:

Basalt Columns are mostly grey with some brown and taupe variations. Many have natural moss growth.
